CHANGING TIMES IN INDIAN HEALTHCARE

The Healthcare landscape in India is undergoing huge changes with launch of Ayushman Bharat and several other factors. Both public and private healthcare industries are affected. Are we ready to face this humongous challenge?

By **Dr Shubnum Singh**
 Director-Medical Education, Medical Research Advisor -
 Healthcare Framework, Max Healthcare Institute Ltd

11:05 AM - 11:15 AM

CRACKING THE HEALTHCARE CODE IN INDIA'S SMALLER CITIES

Majority healthcare Services and private players are concentrated in Metro cities whereas tier 2 & tier 3 cities and rural India are lagging behind in terms of service delivery. With more than 600 district towns in India and many have very little services in terms of healthcare infrastructure. How do we overcome this?

By **Dr Naveen Nishchal**
 Founder Director, Cygnus Hospitals
 Co - Founder, Meddo Network Of Clinics

11:15 AM - 11:30 AM

INTEGRATING SMART MEDICAL DEVICES INTO PEOPLE, PROCESS & TECHNOLOGY

Now the smart phones are eating away into the medical devices space. The networks are getting smarter such that the line between IT infrastructure, Networking and Applications is blurring as we move to the cloud. The Digital Hospital has all of these. Whereas Disease management takes this beyond the enterprise into the homes and lives of the person. Insurance and Pharma are analysing the lifestyle data which is not necessarily disease data. Our lives are rapidly getting digitized!

By **Dr Pankaj Gupta**
 Partner, Taurus Glocal Consulting

11:30 AM - 11:40 AM

THE SMART PARADIGM OF HEALTHCARE

How smart technologies such as Artificial intelligence, Telemedicine, PACS, Online patient feedback system, GPS enabled Ambulance services and Innovative Digital Marketing techniques is making health are more efficient, effective & accessible for all.

By **Dr Sandeep Chatrath**

11:40 AM - 11:50 AM**SMART HOSPITALS FOR SMARTER DOCTORS**

In this era of rising costs and decreasing budgets, healthcare facilities are forced to find ways to stay competitive and increase their bottom lines — all while providing excellent patient care and attracting the best staff. Technology is the solution, but how are providers identifying the right technology and securing buy-in from physicians and administrators while also keeping an eye on the bottom line?
